Summary

Primary interest is in web development, I can do both front-end and back-end programming. The industry and technology we use is constantly moving forward. It is one that requires knowledge and education throughout one individual's career. This exciting me as there will always be new things to learn and new challenges to overcome. I primary specialize in php with emphasis on the Laravel PHP framework. From now on, I decided to transition from PHP to Javascript tech.

Experience

OrangeApps.ph
Software Engineer

Sept 12 2021 - Up to present

Building and developing modern school management system apps that bundle with SIS, LMS & CMS features. Primary task in developing finance system. held all kinds of finance side tasks like cashiering, invoicing, accounting, development of reports.

iamante.netlify.app
